Our college organized remedial classes to support academically weaker students and help them strengthen their understanding of core subjects. These classes were conducted in online and offline modes, ensuring that students received additional guidance. Faculty members identified students who required extra support based on their performance in mid-term test (MTT). During the remedial sessions, teachers provided simplified explanations, additional practice exercises, and personalized doubt-clearing opportunities. Attendance was encouraging and students actively participated in the sessions. The programme helped improve student confidence, conceptual clarity and overall performance. The college plans to continue these remedial classes as part of its commitment to inclusive and outcome-based education.
